Your Occupational Health & Safety Professionals

Auditing and Inspection Services

Our auditing services are intended to assist companies to comply with the OHS Act 2000 and Regulations 2001 by reviewing OHS & IM Management systems.

Occupational Safety has fully trained and accredited Auditors that will provide:

- ✘ Detailed audit reports listing areas of compliance and non-compliance to support your companies continuous improvement initiatives.
- ✘ Detailed Action Plans of the specific tasks you need to ensure ongoing compliance and to prepare your company for future audits.

Accreditations

Steve Ricketts, Principal Consultant of Occupational Safety, has had 15 years of experience in the OHS field. His auditing accreditations are:

- ✘ Certified OH&S Management Systems Auditor - Quality Society of Australasia
- ✘ Accredited Workcover OH&S Management Systems Auditor - Premium Discount Scheme
- ✘ Accredited PQC (OH&S) Site Safety Auditor - NSW Government

Audits

The audits we perform can be designed to meet your specific needs, or you can use a specific standard from any of the examples below:

- ✘ Workcover Workers Compensation Premium Discount Scheme Audits
- ✘ Compliance Auditing (State or Commonwealth OH&S legislation)
- ✘ Prequalification OH&S Audits to audit NSW Government projects
- ✘ AS 4801 / 4804 Management Systems Audits
- ✘ SafetyMAP
- ✘ Company Specific and Generic OH&S Management Systems Audits
- ✘ Due Diligence Audits
- ✘ OH&S Training Audits (Training Needs Analysis)

Inspection Services

Occupational Safety can also tailor and provide an inspection service relevant to your needs to identify hazards or situations which could injure employees or members of the public. We can provide a range of inspection services, they include:

- ✘ Inspections to identify hazards in workplaces
- ✘ Regular Workplace inspections to provide an external and independent review of the workplace
- ✘ Electrical Tools and leads compliance inspections
- ✘ Plant and Equipment (Including Scaffolding) inspections
